MADE IN ITALY

Fap Ceramiche, which began in the mid-Sixties when Fabbrica Artistica Piastrelle in Sassuolo, quickly made its mark by producing high-quality floor and wall tiles. Joining Gruppo Concorde in 1997, the brand revitalized its focus towards bathroom wall tiles and residential flooring, thus carving a distinct niche in the global market. Continuously evolving, FAP Ceramiche brings tradition with innovation together, embodying Italy's rich tile-making heritage while emphasizing environmental sustainability and craftsmanship. Their approach blends meticulous material selection with advanced technologies, focusing on large formats and innovative tile decor to evoke emotions and beauty. Drawing inspiration from art, color, and matter, FAP aims to create spaces that cater to the diverse tastes of architects, designers, and homeowners worldwide.

WILD TILES

The background of the entire page is a soft, out-of-focus photograph of green leaves, likely from a plant like an olive tree, with a dark teal overlay. The leaves are scattered across the frame, creating a sense of depth and texture.
