LUXE

In 2022, we took our first step toward introducing the concept of affordable luxury. The notion behind this initiative was to not let cost become a hindrance to exploring the inspiring creativity to design a dream home. We brought artistic pieces from around the world that have been created by artisans who believe in Eden, God's perfect art, being their muse. Our sanitary ware range includes paradisiacal shades and silhouettes with glamorous as well as minimalistic perspectives. The quality of our products is remarkably durable as they are manufactured following international standards. Welcome to our Eden where imagination has no limitation. Realizing the lack of luxury options in the tiles and sanitary ware industry and limited choices in terms of individualistic designs that can be labelled under the economical range made us take the step of introducing Aive. The inspiring patterns of tiles have been brought to your doorstep.
