A modern interior scene featuring a light-colored modular sofa, a round marble coffee table, and a dark marble wall with a light switch and outlets. The sofa is composed of several rectangular sections with thick cushions. The coffee table is round with a white marble top and thick, tapered legs. The wall is made of large, dark grey marble slabs with prominent white veining. A single white light switch and two white electrical outlets are mounted on the wall. The floor is covered with a light-colored, textured rug. The lighting is soft and even, highlighting the textures of the materials.

Whether you're a designer, architect, or homeowner, these slabs serve as a canvas for creativity, allowing you to craft environments that are both bold and timeless.

Each piece is a testament to craftsmanship, designed with meticulous attention to detail and made from the finest raw materials.
